# ICYKOOOL

Breathe easy with our HVAC solutions.

# About Us

Icykool has a long history of being the trusted HVAC solutions partner in large scale projects. After garnering extensive experience in the industry abroad, Ravi Kushalappa founded Icykool in 1996. Based out of Bangalore, we have built a stellar reputation of delivering Heating, Ventilation and Air Conditioning products and services to our clients.

Over the years, we have successfully collaborated in projects involving tech parks, shopping malls, hospitals, diagnostic centres, corporate office buildings, factories together with taking up public sector initiatives like metros, train stations, power stations and so on. Our expanding client base started with Cafe Coffee Day chain outlets in 2000s to later include prestigious organisations like Mindtree IT Solutions, Manipal Hospitals, Happiest Minds Technologies and Wrigley Chewing Gum factory.

Icykool currently entails a team of 50 members who are dedicated to our mission towards ecological conservation. We have partnered with prominent HVAC product manufacturers and have on-board professional solution architects. This powerful synergy has enabled us to grow exponentially and attain an annual turnover of INR 3 cr.

Our commitment to customer satisfaction stems out of our confidence in our product partner and the rapidly growing potential of our expert team. Value for money and transparency characterises the foundational theme of our project tenders. Icykool looks forward to building long-term customer partnerships on the basis of core values like integrity, innovation and intelligence. Having established a prominent place in the corporate sector in and around Bangalore, Icykool aims to soon expand to other metropolitan markets of India.

## Our Mission

*"To deliver sustainable HVAC systems and build strong customer relationships. We aim to influence the infrastructural decisions of the vast corporate market by ensuring customer satisfaction and expert assistance."*

## Our Vision

*"Icykool envisions a greener future by providing quality HVAC solutions and services at affordable prices."*

# OUR SERVICES

Icykool provides a wide selection of HVAC products and services to perfectly align with the custom needs of our clients. We have tied up with internationally renowned product manufacturers to deliver solutions such as VRF-VRV Systems, Ductable AC, Centralised AC, Cassette AC and Split AC, Basement Ventilation, Staircase Pressurisation and Lift Pressurisation. In addition, we also set up deep freezers, cold storage, and chiller solutions such as water- and air-cooled chillers. Together with the installation, we also guarantee after sales services and round the clock support to our clients. Icykool conducts routine inspections to assess the need for maintenance and repairs to ensure the safety and satisfaction of our clients.

## WHY CHOOSE ICYKOOOL?

- Icykool delivers tailor-made HVAC solutions
- Affordably priced packages without compromising quality
- 24x7 professional assistance
- Our products are eco-friendly and zero carbon emissions
- Ensuring on-time project completion 100% reliable after-sales services.
